CompTIA Online Certification &
Exam Preparation Classes

* CompTIA A+
Cost: $1,988
Course Overview
The CompTIA A+ certification is the starting point for a career in IT and validates the latest skills needed by today’s computer support professionals. The certification course confirms a technician’s ability to perform tasks such as installation, configuration, diagnosing preventive maintenance and basic networking.

Details
The course covers maintenance of PC’s, mobile devices, laptops, operating systems and printers. The exams also cover domains such as security, safety and environmental issues, and communication and professionalism.

In order to receive the CompTIA A+ certification, you must pass two exams:

CompTIA A+ 220-801 covers the fundamentals of computer technology, installation and configuration of PCs, laptops and related hardware, and basic networking.

CompTIA A+ 220-802 covers the skills required to install and configure PC operating systems, as well as configuring common features (e.g. network connectivity and email) for mobile operating systems Android and Apple iOS.

* CompTIA Network +
Cost $998
Course Overview
The CompTIA Network+ certification is the sign of a qualified networking professional. It is an international, vendor-neutral certification that proves a technician’s competency in managing, maintaining, troubleshooting, installing and configuring basic network infrastructure.

Companies such as Dell, HP, Ricoh, Sharp and Xerox recommend or require CompTIA Network+ for their networking technicians. It is a technical prerequisite option for IT technicians seeking to join the Apple Consultants Network, and is recognized by the U.S. Department of Defense.

Details
The exam covers network technologies, installation and configuration, media and topologies, management, and security. Candidate job roles include network administrator, network technician, network installer, help desk technician and IT cable installer.

* CompTIA Security +
Cost $998
Course Overview
CompTIA Security+ certification designates knowledgeable professionals in the field of security, one of the fastest growing fields in IT. Security threats are increasing in number and severity, and the gap between the need for security professionals and qualified IT professionals is the largest of any IT specialty. As an international, vendor-neutral certification that demonstrates competency in:

- Network security
- Compliance and operational security
- Threats and vulnerabilities
- Application, data and host security
- Access control and identity management
- Cryptography

CompTIA Security+ not only ensures that candidates will apply knowledge of security concepts, tools, and procedures to react to security incidents; it ensures that security personnel are anticipating security risks and guarding against them.

* This course is presented in a Hybrid Format allowing for self-paced study while still including lab and exam preparation.
